Autonomous Civic-Tech Welfare Scheme Assistant — Agent Architecture

LLM & Framework	Reasoning	Memory	Tools & RAG	Transparency
Groq API + open-source LLM CrewAI for multi-agent orchestration	ReAct-style tool use with task-based agent collaboration	Short-term: task/conversation state Long-term: PostgreSQL user profile & history	Tavily, government portals, PyMuPDF, Tesseract OCR PostgreSQL + pgvector for retrieval	Real-time UI trace of agent actions, tool calls, sources & results — not private chain-of-thought
